

CHIEF'S COMMITTEE Avery Fire Association

November 5th, 2015

The regular monthly meeting of the Chief's Committee was called to order at the Linville Fire Station by Chief Bob Garland. All departments except Banner Elk were represented.

Bob Garland reported from the 911 Committee that street signs were being put up and asked members to send in lists of missing street signs.

Members reported interference on the EMS frequency and on the fire frequency in the Frank district. The boxes to interconnect the fire frequency with Viper were discussed. It was thought that each department would need a box and that they could be purchased on a grant.

David Charles Vance's ad in the paper announcing commercial inspections was discussed.

Bobby Powell announced that he had made contact with a National Firm that specializes in Federal Grants and that they can write grants for Avery County.

He also reported that the Newland Equipment Truck grant had been turned down - but that he would be re-submitting it.

There being no further business, the meeting was adjourned.
