

## **AVERY FIRE ASSOCIATION - CHIEF'S COMMITTEE**

### **Crossnore Fire Station - April 6, 2017**

The regular monthly meeting of the Chief's Committee was called to order by Chief Bobby Powell in Bob Garland's absence.

Member departments were asked to keep sending lists of incorrect and missing street signs to Bob Garland at: [bobgarland4646@hotmail.com](mailto:bobgarland4646@hotmail.com).

The State 50/50 Matching grant was discussed, noting that the County Departments would be spending upwards of \$ 600,000 for new equipment. Levin Sudderth agreed to compile a list of equipment that could be purchased by cooperative bids for the next meeting. He asked departments to email their grant application equipment purchase lists to: [levinsudderth@averyschools.net](mailto:levinsudderth@averyschools.net).

Charlie Franklin explained and handed out a new County Frequency template with the new TAC frequencies added. He also passed out the Avery County 800 channel list. Members agreed to use the template when installing frequencies. Charlie confirmed that all 12 county channels were licensed in the name of the Avery Fire Association. Bobby Powell agreed to check and see what PL's would be used on the 5 new TAC frequencies. Members were asked to bring a list of all radios - including the number, brand & model numbers to the next meeting.

There being no further business, the meeting was adjourned.
