

AVERY FIRE ASSOCIATION

Chief's Committee

February 4, 2021

Chief Bob Pudney called the meeting to order. Tyler Burr reported that his town has been overrun with tourists, which has resulted in over 500 calls in the last twelve months. It is straining his budget. He asked if the room tax monies could be used to subsidize his budget. It was noted that the room tax can not be used for emergency services. He also reminded members that a vehicle accident call recovery plan had been discussed in the past - which would help. Bob Garland suggested that he determine how many calls were tourist related and approach the fire commission for help.

There being no further business, the meeting was adjourned.
