

AVERY FIRE ASSOCIATION

March 3rd, 2022 - Gwaltney Station - Avery Ladder Company

Vice President Mark Richardson called the meeting to order in Scott Stansbury's absence. Roll was taken; seven Devils, banner Elk, Frank & Newland were absent. There were no minutes or a financial report.

There was no report from : Mayland Tech, The Fire Marshal's office, or the Training Committee. The ladder company reported that they did not go to Green Valley , but would be going to Elk Park the following Thursday. They also discussed the Ladder Company member's insurance coverage and new equipment on the ladder truck.

There was no forest service report.

The Chief's Committee discussed the possibility that the Fire Commission was considering adding additional paid employees. They were also confused as to why the Commission never approached the association on this subject? They noted that the Fire Department Coordinator has never attended the association meetings. The Chief's thought that more money should be invested in the volunteers to increase membership. They also thought the commission should stop EMS's use of paid firemen instead of adding EMS staff. The Chief's asked that Scott Stansbury call Scott Heath and confirm rumors, ask for help with recruitment & retention and help with the EMS problem.

The 911 Committee reported on the non-response calls and the offer from Dispatch to use ProServe software instead of I Am Responding.

Fire Commission report - The first budget meeting will be next Thursday.

The next meeting was set for April 7th at the Crossnore Fire station. They will be serving breakfast. Chiefs meet at 6:30 pm and Association at 7:00pm

There being no further business, the meeting was adjourned.
